

## PRODUCT INFORMATION SHEET

### INTERIOR CLEANER

#### ECO-FRIENDLY INTERIOR CLEANER

##### Description:

ECP INTERIOR is an concentrated, mild, efficient, low-foaming cleaner with a fresh scent. It was specially developed for professional use at home.

##### Properties:

ECP INTERIOR is safe for use on all washable surfaces. It contains special ingredients which leave surfaces clean and streak-free when dry. ECP INTERIOR is 100% safe for the environment, contains no dangerous components, is gentle on the skin and is completely safe for humans and animals. Very suitable for daily use.

##### Instructions for use:

Prepare the required quantity of cleaning solution in a spray bottle or bucket. Apply the cleaning solution onto the surface and leave it to work for a short time. Scrub heavy grime using an interior sponge or brush. Wipe the surface with a clean, ECP BAMBOO microfibre cloth.

##### Dilution:

- Microfibre spray method: 1 dose in a spraybottle of 500ml / 1000ml
- Microfibre bucket method: 40 ml = 1 dose in 10 litres of water.
- For heavy soiling and basic cleaning, apply product and let it set for a minute.

##### Innovative sustainable technology:

ECP INTERIOR is based on innovative molecular technology. All our products are developed in line with the strict guidelines of HYGENIQ's sustainability manifesto. Visit <https://www.hygeniq.com/manifesto/> for more information.

##### Packaging:

Earth Cleaning Products (ECP) uses 100% renewable material as Glass and aluminum for all plastics used 100% plant-based bioplastic for its packaging. Moreover, this unique, fully renewable material is also 100% recyclable and can be turned into valuable post-consumer plastic. Our use of this plant-based packaging means that CO2 is absorbed and global warming is slowed.

##### Technical information:

- Transparent blue liquid
- pH in concentration: approx. 7

##### Transport, handling and storage:

ECP INTERIOR is non-classified. There are no restrictions for the transport, handling and storage of the product.
